

David L Nieland

Subject: Biology Lecturer at Georgia Southern University

Georgia Southern University invites nominations and applications for the position of Lecturer in the Department of Biology in the College of Science and Mathematics. Georgia Southern University is a member institution of the University System of Georgia and a Carnegie Doctoral/Research University devoted to academic distinction in teaching, scholarship, and service. At Georgia Southern we provide a culture of engagement that bridges theory with practice, extends the learning environment beyond the classroom, and promotes student growth and life success.

Accredited by the Commission on Colleges of the Southern Association of Colleges and Schools, Georgia Southern offers more than 100 academic majors in a comprehensive array of baccalaureate degrees and selected master's and doctoral programs. Academic programs are organized within eight colleges:

Business Administration, Education, Health and Human Sciences, the Allen E.

Paulson College of Engineering and Information Technology, Liberal Arts and Social Sciences, the Jiann-Ping Hsu College of Public Health, Science and Mathematics, and the Jack N. Averitt College of Graduate Studies.

A residential university with enrollment of more than 20,500 students, Georgia Southern is one of Georgia's premier universities. One of the top choices in Georgia for new freshmen, including HOPE Scholars, Georgia Southern enrolls an increasingly selective student body representing 49 U.S.

states and nearly 100 nations. The University continues to enhance its academic profile through higher admission standards, an expanded Honors Program, and scholarships for academically talented students.

Georgia Southern University is committed to advancing the state of Georgia and the region through the benefits of higher education, offering both campus-based and a number of online degree programs. The University fosters access to its educational programs, provides a comprehensive and fulfilling university experience, and enhances quality of life in the region through collaborative relationships supporting education, health care and human services, cultural experiences, scientific and technological advancement, athletics, and regional development.

Our 900 acre park-like campus in Statesboro, Georgia is not far from historic Savannah and Hilton Head Island and provides the benefits of a major university with the feeling of a much smaller college in a classic Main Street community.

Within this setting, the Department of Biology consists of a diverse faculty of teacher-scholars involved in a wide spectrum of activities ranging from molecular to ecological studies on the coastal plain and throughout the world. The Department provides undergraduate and graduate students with a challenging education that is research-based and technology-oriented. We provide a foundation for life-long learning and appreciation of biological processes and biological diversity through teaching, research and outreach.

Position Description. Reporting to the Chair, the Lecturer position includes teaching major's introductory biology courses, genetics, physiology, or microbiology. The position is a 9-month, non-tenure track appointment, and the salary is competitive and commensurate with qualifications and experience.

Required Qualifications:

- Ph.D. in the Biological Sciences or a closely related field by December 31, 2014
- Expertise to teach biology major's introductory courses, genetics, physiology, or microbiology
- Evidence of successful teaching in biology or a closely related field at the university level
- Strong communication skills
- Must be authorized to work in the United States for the duration of employment without assistance from the institution

Preferred Qualifications:

- Experience with large-enrollment courses (>75 students)
- One year full-time biology teaching experience at the undergraduate level

Screening of applications begins November 15, 2014, and continues until the position is filled. The preferred position starting date is August 1, 2015.

A complete application consists of a letter addressing the qualifications cited above; a curriculum vitae; an abbreviated teaching portfolio (<10

pages) with a teaching philosophy statement, teaching interest statement, description of courses taught in the last 5 years including dates and role in course, and exemplary teaching products; and the names, addresses, telephone numbers, and email addresses of at least 3 professional references. Applications must be sent electronically with the cover letter, curriculum vitae, reference contact information, and the teaching portfolio in a single PDF formatted attachment (include applicant name in file name).

Other documentation may be requested. Only complete applications and applications submitted electronically will be considered. Finalists will be required to submit to a background investigation. Applications and nominations should be sent to:
