

David L Nieland

Subject: Ecology lab manager at UCSB

OVERVIEW: Seeking Laboratory Manager for ecological research lab at UC Santa Barbara. Position is full-time and based at UCSB. Please read more about the McCauley Lab here:

<https://labs.eemb.ucsb.edu/mccauley/doug/index.html>

Candidate will be responsible for assisting with data analysis, launch of experiments in field and lab, management of laboratory finances, the production of research reports, management of databases, and will oversee a team of ten undergraduate research volunteers. Outgoing Lab Manager actively published scientific papers in collaboration with PI and this opportunity will again be emphasized.

QUALIFICATIONS: BS or MS in the biological sciences, particularly with strong background in ecology. Experience in ArcGIS and R required.

Applicants interested in carrying on to pursue a higher degree in ecological sciences are preferred. Experience with the peer-review publishing an asset.

APPLY: Apply at UCSB jobs website:

jobs.ucsb.edu/applicants/Central?quickFind=188456

Position open until filled.

TIMING: 1 Year. Start dates in Dec 2014 or Jan 2015 preferred.

APPLICATION DETAILS: Interested candidates please provide in your online application package 1) CV with GPA and listing of relevant experiences, 2) 1-2 paragraph statement of interest, 3) names of 3 references and their contact information, and 4) the date you would be available to start.
